Y-O-U TOO CAN NOW HAVE

BETTER SIGHT WITHOUT GLASSES!

As a result of his application of the methods of W. D. Bates, and others, Mr. Harry Benjamin discarded the strongest glasses it was possible for the most expert ophthalmologist to prescribe, and was saved from complete blindness, despite the fact that the specialists had announced that nothing could be done for him.

Thus convinced that spectacles were but crutches which, instead of curing eye weaknesses, actually increase the strain on the eyes, he made an exhaustive study of the whole subject of defective vision. The simple yet startlingly successful methods which he evolved are set down in a remarkable book.

"BETTER SIGHT WITHOUT GLASSES"
by HARRY BENJAMIN, B.M.N.A.

which gives clear, simple, detailed instructions which all may follow with the utmost ease. A few minutes a day are all that the methods entail to produce the most remarkable results.

READ THESE TESTIMONIALS AND BE CONVINCED!

"Thanks to the Benjamin book after 11 years with eye glasses at a cost of $360.00, I can now read the complete daily paper without glasses after following the instructions in this wonderful book for a period of only months. I am now working for perfect eyesight." — E. Schuttner, Bridgeport, Conn.

"Four days ago I put my glasses in the desk drawer and I haven't touched them since. My eyes feel much more relaxed without them. Wonderful eye correction—infallible!" —Marshall Rodin, Rhode Island.
